

# 600 LOSE WORK BY WATER-FRONT BLAZE IN BOSTON

Flames Swept Quarter Mile of  
Dock Property, Causing  
\$1,500,000 Loss.

BOSTON, July 9.—Practically the entire loss of \$1,500,000 caused by the fire which destroyed almost a quarter of a mile of the water front of East Boston yesterday will fall upon the insurance companies, those taking marine risks as well as the companies which insure against fire being responsible for part of the loss under a clause in the policies which protects merchandise for a time while at the wharves awaiting removal.

The Boston and Albany Railroad Company had property representing \$1,000,000 destroyed by the fire, including two piers occupied by the Cunard Steamship Company, the Leyland line docks and the New York Central Railroad, the great grain elevator, several lighters and a large quantity of merchandise, and most of the damage is covered by insurance.

It is believed that only one person perished in the blaze, Daniel Sullivan, a watchman at the Cunard line pier.

Some six hundred persons were thrown out of employment as a result of the fire. These composed the force of fruit handlers and longshoremen at the steamship docks, the office forces of the Cunard and Leyland lines and the employees of the railroad companies.
